

# DGE white paper

## I Story background

Welcome to dinosaur paradise! This is a prehistoric world, where all kinds of dinosaurs lived. As a native of the world, you need to learn how to get along with them. If you find the right way to collect all kinds of dinosaur eggs and use them in an appropriate way, they will make you harvest a lot here. In addition, in this world, all creatures are hatched from eggs, and there are rich props, forming a broad and colorful ecosystem.

This dinosaur paradise is a meta universe based on the coin security smart chain (BSC). It has a broad product blueprint, and its functions will be gradually launched. Initially, it will include a trading platform and NFT trading market. In the future, it will include a social networking platform. In this dinosaur world, you are not only the user of the world, but also the master of the world.

Through dinosaur eggs and NFT's core token dge, you will fully reap the growth dividend of dinosaur ecosystem while using products.

## II Introduction to dinosaur blind box

Open the blind box and randomly get level 1 to level 5 dinosaur cards. The cards can be incubated in the incubator to get token rewards, or can be freely traded in the trading market

### III Blind box card system

The combat power range of star cards is basic combat power + random combat power. The details are as follows:

Grade Level	1 Level	2 Level	3 Level	4 Level	5 Level
Blind box probability	50%	30%	15%	4%	1%
Combat power bonus	0	1.2X	1.6X	3X	10X
Life value	12	12	12	12	12

Cards can hatch 12 times a day. When their HP is consumed, they will continue to hatch after 24 hours

#### IV Combat incubation system

Dinosaur cards can be incubated with 4 levels of incubators to obtain reward tokens

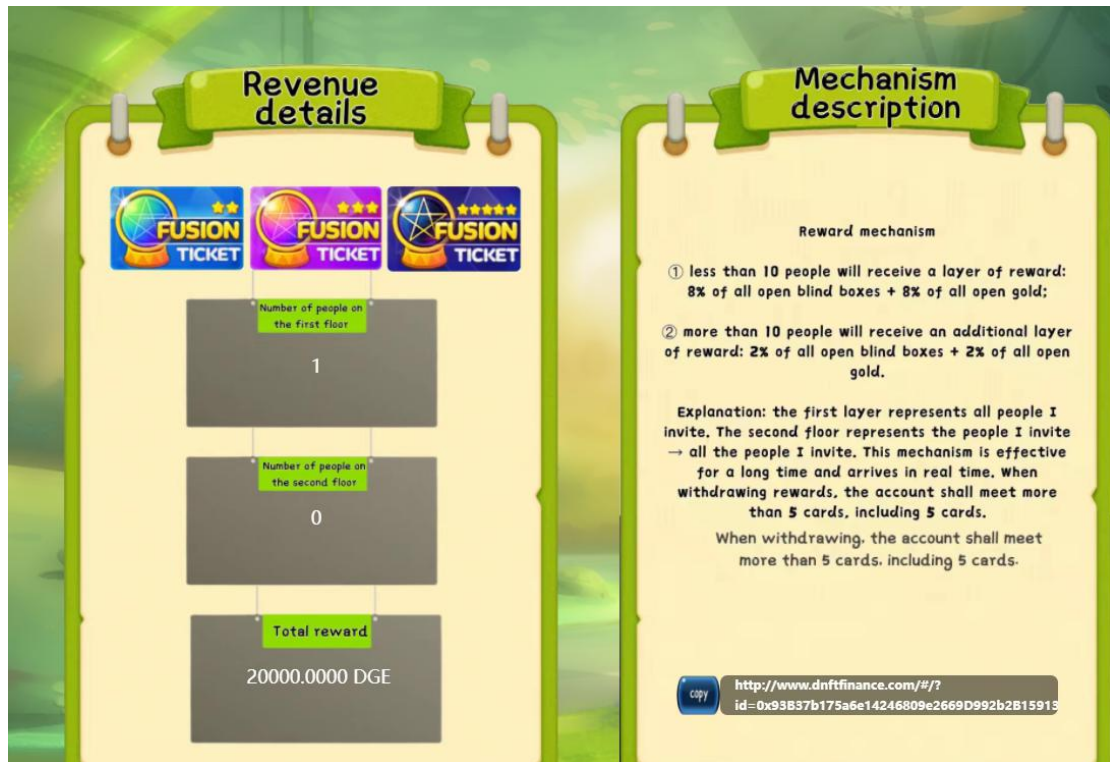

Low level incubator: one victory reward: 50 yuan, winning rate: 80%

Primary incubator: one victory reward: 150 yuan, winning rate: 60%

Intermediate incubator: one victory reward: 300 yuan, winning rate: 40%

Advanced incubator: one victory reward: 500 yuan, winning rate: 20%

#### V Invitation system

Double layer reward mechanism, promotion and publicity, no upper limit of income,

Open 5 blind boxes and get promotion links immediately

Level 1 Reward: get 8% of the invitee's open blind box and gold

Level 2 reward: get 8% of the open blind box and gold from the invitee + 2% of the open blind box and gold from the invitee

Explanation: the first floor represents all the people I invited, and the second floor represents all the people I invited → all the people invited. This mechanism is effective for a long time and arrives in real time. When obtaining rewards, the account needs to meet 5 cards, including 5 cards.

## Vi Lottery blind box

Open 10000 tokens at a time and have a chance to win 100000 tokens

Open 9500 tokens 10 times and have the opportunity to win 1 million tokens

## VII Token information

Token Name: DGE

Full name: Dinosaur gold egg

Total: 100 million

Token distribution: 10% provides LP capital pool, 10% marketing and publicity,

30% provides LP mine pool and 50% incubator

Initial price: 0.005u

Initial capital: 50000u

Price of blind box: 10000 tokens (50U)

Combustion mechanism:

Buy combustion: 5%, sell combustion: 5%.

Gold extraction combustion: 10%

Trading market combustion: 10%
